OAG Cyber Crime Amendments

- §19.2-70.3
 - Governs procedures for obtaining electronic evidence and their admission to court
 - Would amend to allow an ISP who is providing the material to authenticate emails via affidavit
- §19.2-10.2
 - Allows law enforcement to obtain customer subscriber information from ISP's via administrative subpoenas ONLY in child exploitation investigations
 - Amendment would seal the subpoena to prevent the ISP from tipping off the suspect offender

State Police Legislative Amendment

- §19.2-53
 - Governs what may be searched and seized
 - Amendment would clarify that the initial search warrant which authorizes the lawful seizure of digital evidence, includes the collection of such evidence from the piece of media at or away from the initial scene
 - Clears confusion as to whether a second warrant is required
 - Does not expand law enforcement authority
